Sanket Kolhe

Python Full-Stack & AI Engineer

Surat, Gujarat | +91 8010364260 | sanketkolhe801036@gmail.com | linkedin.com/in/sanket-dev | github.com/sanket801036

PROFESSIONAL SUMMARY

Python Full-Stack & AI Developer with 3 years of experience. Shipped 10+ in-house systems for an e-commerce fashion company with FastAPI, Flask, React and PostgreSQL, including a 15-module ERP, a scraping portal handling 10,000+ product records a day, an LLM email triage system and a CLIP + FAISS visual search engine. Deploys with Docker, Jenkins, AWS, Nginx and Linux.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, TypeScript, SQL; Selenium, BeautifulSoup, Pandas, Odoo XML-RPC, Gmail API
- **Backend:** FastAPI, Flask, Django, Django REST Framework, REST APIs, SQLAlchemy, Pydantic
- **Frontend:** React, Vite, Tailwind CSS, Angular, React Native (Expo), HTML5, CSS3
- **AI & Vision:** LangChain, LangGraph, RAG, LLM APIs (Groq, Gemini, Mistral), OpenCLIP, OpenCV, YOLOv8, InsightFace, PaddleOCR, LayoutLMv3
- **Data & Vectors:** PostgreSQL, MySQL, FAISS, pgvector, Pinecone
- **Cloud & DevOps:** Docker, Kubernetes, Jenkins, SonarQube, Trivy, AWS (ECS, ECR, App Runner), Nginx, Linux, Git

PROFESSIONAL EXPERIENCE

Python Full-Stack / AI Developer | Leemboodi, Surat
Nov 2025 - Present

Shooting ERP: Fashion Photo-Shoot Pipeline
Tech: FastAPI, Pydantic, SQLAlchemy, PostgreSQL, React, Vite, Tailwind CSS, Nginx

- Rebuilt a 15-module ERP on a live 72-table PostgreSQL database after the source code was lost: ~120 REST APIs and 31 config-driven React screens for 12 user roles, tracking every garment by barcode from challan to launch; SLA alerts, audit log of every write, and thumbnails that cut 40-50 MB responses to a few hundred KB.

Enterprise Scraping Portal
Tech: Selenium, undetected-chromedriver, BeautifulSoup, Flask, PostgreSQL, openpyxl

- Teams upload XLSX sheets of target URLs and get back 10,000+ product records a day from Amazon, Flipkart and Myntra (pricing, Buybox, BSR, ratings), replacing paid scraping APIs.

Image-RAG Cloth Similarity Search
Tech: OpenCLIP (ViT-H-14), FAISS, OpenCV, rembg, Flask, PostgreSQL

- Matches a phone photo of a garment to its catalog SKU: background removal, CLIP embeddings, FAISS top-300 retrieval and colour re-ranking; nightly auto-indexing keeps the last 2 index versions for rollback.

MailFlow: AI Email Triage & Auto-Reply
Tech: FastAPI, React, PostgreSQL, Gmail API, Groq / Gemini / Mistral, fastembed, APScheduler

- Classifies 100+ shop emails a day with JSON-schema structured outputs, drafts grounded replies with dry-run and approval modes, and fails over across 3 LLM providers. (github.com/sanket801036/MailFlow)

Fabric Dispatch Mobile App
Tech: React Native (Expo), Flask, PostgreSQL, Odoo XML-RPC, Nginx

- QR scanner app that verifies vendor fabric lots against purchase orders with live Odoo lookups, plus return scans and a web dashboard; 3,600+ scans verified, duplicates blocked with a UNIQUE constraint.

Python Full-Stack / AI Developer | XRDA3 Technologies Pvt. Ltd., Pune
Sep 2023 - Nov 2025

Production RAG Chatbot
Tech: Flask, LangChain, FAISS, MySQL, Docker, AWS App Runner

- Retrieval-augmented chatbot for enterprise document search, containerised with Docker and running on AWS App Runner at 99.9% uptime.
- **Other work:** OCR menu-extraction APIs (PaddleOCR, fine-tuned LayoutLMv3) at 95%+ accuracy; real-time face recognition (YOLOv8, InsightFace).

EDUCATION

Master of Computer Applications (MCA)
Dr. Vithalrao Vikhe Patil Foundation's IBMRD, Savitribai Phule Pune University | 2025 | CGPA 7.04/10

Bachelor of Computer Applications (BCA)
Institute of Management Studies Mahavidyalaya, Warud | 2022 | 77.32% (CGPA 7.73/10)

CERTIFICATIONS & TRAINING

- LLMOps & AIOps Bootcamp (Docker, Kubernetes, Jenkins, AWS), Udemy, 2025
- AI Python Programming Industrial Training (200 hours), NSDC Skill India, 2024: Grade A
